MUHAMMED HISHAM C

Cyber Security Professional

📞 +91 9567 4267 38 ✉ muhammedhisham.c4321@gmail.com 📍 Abu Dhabi, UAE 🔗 /in/muhammed-hisham-c-7351a8283

PROFESSIONAL SUMMARY

Entry-levelcybersecurityprofessional with practical experience in penetration testing, SIEM implementation (ELK), threat analysis, and vulnerability assessment. Strong foundation built through a BCA degree, an Advanced Diploma in Cyber Defense (ADCD), and certifications including Google Cybersecurity Specialization and Cisco Ethical Hacker. Hands-on in creating CTF machines, building SIEM dashboards, and reporting security issues through Bugcrowd. Familiar with Active Directory basics—user/group management, GPO fundamentals, authentication methods, and identifying common misconfigurations. Currently pursuing CEH to strengthen offensive security skills. Eager to contribute to real-world security projects and continuously grow in the cybersecurity field.

TECHNICAL SKILLS

Security Tools: Burp Suite, Nmap, Wireshark, Metasploit, Nessus, ELK Stack, Splunk, Wazuh
Operating Systems: Unix, Linux, Windows
Scripting: python, Bash
Web Security: OWASP TOP 10
Framework: MITRE ATT&CK, NIST CSF, Cyber Kill Chain

CERTIFICATIONS

- GoogleCybersecurity Specialization | 2025
- Cisco Ethical Hacker | 2025
- Advanced Diploma in Cyber Defense (ADCD) | 2026
- EC-Council CEH | (Pursuing)
- Microsoft Excel | 2024

PROJECTS

SIEMusingELK Stack
- ConfiguredELKStackfor log ingestion, monitoring, alerting, and dashboard visualization.
- Implementedbasicthreat detection rules.

Custom CTF Machine
- Designed amulti-stageCTF machine covering SQL Injection and privilege escalation.
- Used for hands-on learning labs and security demonstrations.

ACHIEVEMENTS

- Reported a validvulnerability via Bugcrowd
- Completed TryHackMe Advent of Cyber 2025
- Earned a certificate for developing a CTF challenge machine

EDUCATION

BachelorofComputerApplication (BCA)
Calicut University | 2025
